

A world spinning fast out of control

Recently I posted on [the biggest cult in the world](#) that is political. We now have a man claiming to be [the new Son of God](#) who has brought the kingdom to earth and has more than 6, possibly 8 million followers. He says God is done with Israel and the church and that his kingdom has come (millennium) with Eden restored in the Philippines. What he claims and what he is teaching is very dangerous as it involves a conglomeration of false teaching from many prior sources and some new concepts.

Something seriously happened to the way people think from the Covid lockdowns and we are just beginning to see the results today. Logic and common sense have become missing in nearly every facet of society. Truth has fallen in the street, do people notice, only a few?

Francis Schaeffer was an apologist and philosophical thinker who had a burden to evangelize his lost generation. Commenting about modern man's thinking he wrote in the 1970s that our culture “*no longer believes in truth but only in Hegelian synthesis, Modern man thinks truth is unfindable*” (*The Church at the End of the 20th Century*). We now live in an amoral, relative society.

This newsletter is not for the faint of heart, I hope it will strengthen those who read it and give them a better understanding of the state of the country and the world, and how serious it is. Actively discerning everything is the most important action one can have living in the last days to survive this time of growing deception.

At the same time this confusion in politics and religion is taking place there are planners who have mapped out all of the worlds future. Unprincipled, unaccountable, non-elected (most of them) men who are now self-appointed Czars, despots, tyrannical leaders

There is no defense on the direction of the world and the way our nation is being led, toward its own destruction. The danger of godlessness, communism, and secular (humanism?) is everywhere. How many issues can be on the table before the legs collapse? It's already shaking violently, more decisions of corruption are daily adding to its overweight.

Independent thinkers often used their imagination, wrote books, and did TV series. There are many that can be referred to. Rod Serling, the host of the Twilight Zone was not prophetic but he certainly had insight into [mankinds ways and history](#).

If one were to estimate the weather forecast for our future, it would be stormy with lightning strikes.

The culture change

Someone finally asked the question “[Who Allowed This To Happen](#)’: Olympic Medalist Blasts Men Competing In Female Sports.

What if you went to the store to buy oranges and were given apples, but the store insisted they were oranges? The difference between apples and oranges cannot be denied even though they are both fruit. But those cultural change agents want us to believe their alterations are acceptable.

So it is with sexes, both men and women are human beings, but there are genetic differences. If you have anything to say on transgenderism that is now being normalized to change society then you are immediately labeled a hate monger, a racist, a religious bigot. They want men to be women and women to be men, which is part of the idea of population control.

Pink Floyd made popular the cliché singing, ‘Teacher leave our kids alone.’ Now we can add government, hospitals and so much more to schools. Yes, they are after the children for that is the next generation. Sexualizing young children, influencing them to mutilate their bodies for alteration, what will be left of them or our culture in the near future?

To reduce the population of the world to 500 million was posted on the [Georgia Guidestones](#) until they were [blown up](#). The Marxists/ WEF publicly said this is their goal for the now 8 billion-plus humans on Earth.

Say something about any of these topics and they aggressively call you all the names they can think of. We are using the Word of God as our defense. So it really is God they are mad at. This is the same Word of God that all are to conform to in the Church. As all this is normalized, Christian witnessing is demonized and certain churches are succumbing to the world's influence of tolerance.

Nothing is happenstance

US Congressman [@RonJohnsonWI](#) that covid was "pre-planned by an elite group of people. Called Event 201". This would require reliable cooperation among several industries, national governments, and key international institutions [connected to](#) for solutions. There is no other way to logically explain the Klaus Schwab (WEF) book on Covid published before COVID hit.

The world is being overwhelmed with hopelessness that is harmful to our heart physically and emotionally. We read in Scripture when hope is deferred it makes the heart grow sick. Over 49,000 people took their own lives last year in the U.S., the highest number ever (Lk.21:26).

Living through the Covid aftermath

High school and college athletes continue to collapse dead.

We are being told Covid Can Kill For [Up to TWO YEARS Post-Infection](#)

Some are saying the [mRNA vaccines](#) being introduced into the nation's cattle supply, The U.S. Cattlemen's Association (USCA) has formed task forces to develop an assessment of the issue. Dr. Peter McCullough continues to sound the alarm of mRNA injections whether in the form of human vaccination, or through our food supply.

It's become difficult to know what is conspiracy or reality, since some of what was considered conspiracy is now confirmed truth.

Wuhan labs release was a grave concern, should we not also be concerned about the [Unassuming warehouse in California as a Chinese-run lab](#), why did we had bio labs across the Ukraine Russian Border according to Victoria Nuland.

Now we have [Mask mandates return](#). Two new Covid strains prompts a new coronavirus vaccine to appease the continual hysteria, all who got vax prior will need to get it again. Millions received multiple injections but these are still not enough as supposed new variant[s] threatens everyone.

The past is still the present

When Trump spoke of wanting to clean out the swamp, he did not realize how pervasive it had become. They reacted violently, because they were threatened. Let us never forget who they gave America, the oldest and biggest swamp creature. We have now entered extremely dangerous political waters in the direction they are taking us.

[Jan. 6 Interview](#) with Former Capitol Police Chief is all one needs to watch to understand the ramifications of what is taking place. Former Capitol Police Chief Steven Sund in a [do-over interview](#) with Tucker Carlson (the original did not air on Fox) tells the story of what took place was not just a failure of communication but interference, presumably hijacked by the deep state players.

On Jan. 6 there were a few places of violence outside the capitol to get into the capitol but there was very little violence inside. Why? To call this an insurrection is an embellishment at best. One can call it a reverse entrapment operation. And who exactly would do that?

The Jan 6 committee recently destroyed their documents that they worked with. How obvious is this? How far will they go? The question is How far will we let them go?

They have decided to incarcerate the former president, don't underestimate how far they will take this. I have been warning for the last year of the ultimate end of life to stop him, as he will not be coerced or intimidated.

As a former president is being prosecuted for questioning an election, at the same time the present occupant is being found to be guilty of the very same crimes they claim for the former.

There were far more government officials and main news casts in 2016-2019 blaming it on Russian interference that were proven wrong, yet when he wants to present facts instead of innuendo his main opponent has him indicted.

Free speech is at stake as Trump is being indicted for denying election results? Common sense defines reality. Trump spoke and numerous thousands showed up, Biden (rarely spoke, as he stayed in his basement) and hundreds at most showed up. There are times the current president [speaks the truth](#) (by mistake).

The left screams [there is no voter fraud](#). Yet he received the most votes of any president in HISTORY? If you believe that then maybe you can be convinced that Putin blew up his own oil pipeline.

Breitbart News [reported](#), of more than 150 examples of Democrats denying election results, [including](#) President Joe Biden; [Hillary Clinton](#); House Minority Leader [Hakeem Jeffries](#) (D-NY); Reps. [Barbara Lee \(D-CA\)](#), [Maxine Waters \(D-CA\)](#), and [Sheila Jackson Lee \(D-TX\)](#); and failed Georgia gubernatorial candidate [Stacey Abrams](#).

I can't say these people are brainless because when they walk I can hear the rattle. This rattle has nothing to do with babies; but this rattle does: Trump avoided debating and allowed the mostly five-year-olds to fight in their own sandbox. Only a few survived their own public shaming showing how out of touch they are, as people vociferously disagreed with many of their views.

What's wrong with this picture?

The White House has decided to form a plan to regulate AI. The effort will be led by VP Kamala Harris. That's comforting, after all, she did such a wonderful job on the border!

The idea is to get companies like Google, Microsoft, and ChatGPT's founder OpenAI, to participate in a public review. Let's put the wolves in charge of guarding the information for the sheep. That is giving them breakfast lunch and dinner.

The world's brightest minds have already warned about the dangers of AI, that it could destroy humanity without major guardrails. That a risk assessment needs to be conducted immediately. Instead we hear the internet will be run by AI by 2025. Elon Musk who was developing this from the beginning has brought grave concerns, and other tech titans are concerned that AI can potentially outperform human intellect and think for itself. Regardless it is what is programmed in its learning that is the immediate concern.

It's so easy to control people and corporations with digital currency. This is a significant change that can affect everything.

*[World coin](#) co-founder is Sam Altman, the head of the company Open AI, the AI-powered chatbot ChapGPT. World App is "an app that enables payment, purchases, and transfers globally using digital assets and traditional currencies" through a database that links digital cash, or Central Bank Digital Currencies (CBDCs), with a digital identity system. He wants it to be mandatory for anyone who wishes to partake in the day-to-day functions of society.

This is another step closer to control of world finances (Rev.13). Central Bank Digital Currency (CBDC) is being fought right now by individual states. Digital currency is the ultimate weapon for a tyrannical leader to use against any citizen or cooperation for control. Some put it this way, imagine this scenario: U.S. President X takes issue with Citizen Z's social media posts. With a simple push of a button, Citizen Z suddenly finds themselves unable to purchase groceries or pay bills.

AI will certainly be accompanied into this new financial system. What if we don't want to merge with AI, we may left behind ostracized from the systems new world order. One example, Australia was the first to disarm years ago and now they are first to accept the digital currency.

All of South America is turning to communism as the CCP infiltrates countries. Reports are that our intelligence was actively involved in influencing a communist leader over Brazil, South America's largest and most democratic country.

They can never admit wrong because there is no absolute truth so the goalposts are constantly being moved.

They have declared war

The Alinsky Foot Soldiers (AFS: Trained by the book 'Rules for Radicals') are often stealth but when necessary they show up openly on social media to cause confusion always with the goal to take down the system. Called by many different names they are active 24 hours in their assault.

The wrecking crew[s] of America has awakened the country, less than 25% believe we are on the right track.

No war has ever taken place without a spiritual component to it. It starts invisibly among the rebellious, haters of certain people in humanity, they are greedy, who covet. We are now at war internally and externally.

The church has been in a spiritual war for a long time. I think the overall church was being ruined by doctrinal corruption even before politics was, regardless, the remnant will survive.

We have a potpourri of mayhem from the streets to the Whitehouse.

The government has taken the people's dollars and went on a frivolous spending spree. The nation's debt will double according to some in 7 years. When we get to this point it's over for an economy to be solvent. MANY nations that came before have been destroyed this way.

[Gunshot victims arrive at Emergency Room](#) at Birmingham, Alabama they are shot at Again in Drive-by Shooting!

You can eat as many bugs as you want but meat not so much. Now Biden's health czar told DailyMail.com the USDA could revise its alcohol advice to match [Canada](#)'s, where people are advised to have just two drinks per week. Do you think this will go over well with the population?

Fire and water

We do not need to entertain conspiracy theories when reality is so absurd!

The fire in Lahaina Maui was not a natural disaster, nor from global warming as is being stated by officials and the media, The fires on Maui started from electric poles going down from hurricane force winds on dry brush and starting a fire only to have the water turned off to fight it. (2 different videos show this taking place). wind gusts up to 85mph carried the fire on or over the houses and land in Lahaina and other places on Maui.

The utter incompetence and confusion of officials not prepared for this type of scenario was a deadly combination. The devastation is human lives, those who did not have to die. Maui had fires in 2018 and 2019 and knew with the right circumstances a disaster could happen; and they did.

A storm that began in the Atlantic went over Central America into the Pacific and continued to travel west ten thousand miles, becoming Hurricane Dora the longest-lasting hurricane (since Hurricane John in 1994). When it came into our waters it was 500 miles underneath the Islands and stayed as a Cat 4. I can't recall another hurricane doing this. A large high pressure in the Northeast of the Islands was said to cause a conversion-like condition for wind gusts up to and over 80 miles per hour. I know of no such circumstance like this in all the years of being a surfer where winds that far away affected the weather like this. But this is what they want us to believe.

Because of the severe dry conditions, this started our nation's deadliest fire in 100 years. With invasive grass which has been known for years to be highly-flammable when dry. These were not maintained to a minimum, they grew wild, became dry, and easily caught on fire in the vast former pineapple and cane fields that were not maintained.

Incompetence and unpreparedness was the main factor that led to confusion about what took place. The sirens were purposely not sounded from bad judgment, there was no alert on the phones, the water was turned off. Traffic backed up as cars were stopped from leaving, some fled their cars into the water nearby, those who stayed in their cars did not all survive. This made the situation into

When I heard Governor Josh Green, say there are people "fighting against the release of water to fight fires" I thought, who would do such a thing? Days later we learned what this meant as a video was released of M. Kaleo Manuel, the Hawaii water official who delayed the approval for water is an Obama Foundation "Asia Pacific Leader" & a climate activist who believes water should be "revered" first and foremost. Some people actually defended his actions.

This Hawaii water official refused to release water resources, we hear that some landowners were holding against the fire until the water vanished. Explaining his "philosophy" about water: "Native Hawaiians treated water as one of the earthly manifestations of a god... We've become used to looking at water as something that we use, and not something that we revere... We can reconnect to that traditional value set." <https://twitter.com/i/status/1692044616345014589>

With all this having taken place, former pres. Obama made a statement for help by donating to the same organization <https://twitter.com/i/status/1692037772817621319>

For weeks Pres. Biden had no comment on Maui's fire, then he commented when he visited there and afterwards.... [His personal stories](#) got people upset. He would have been better off not commenting.

There are fires everywhere [Louisiana](#), Canada's forest is still burning, previously with over 1,000 fires now 885 active fires burning affecting [the US with pollution conditions](#). Some are by accident, some on purpose (like the [many fires at food processing plants](#), 5,300 since 2020).

The Global warming agenda continues to promote it as the cause. The claim is that the cold causes 9 times more deaths than heat. If true, than wouldn't fewer people die if global temperatures were warmer? As stated logic is not applied. <pic.twitter.com/VyEvAHu8S3>. All the blame is on man, disregarding the oceans are warming as a result of underwater oceanic geothermal activity, which is rarely discussed. They become hysterical so easily because they are ruled by emotions, not facts. The larger the population the more CO2 is needed to support the plants that will give us in exchange our oxygen, however [scientists](#) do not accept the general premise.

COMMUNISTS HAVE NO BOUNDARIES

They act contrary to the law. Castro needed only 28 officials to overthrow Cuba and make it communist.

In America, "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances." (The First Amendment, U. S. Constitution)

Who needs TO MAKE A NEW LAW when they only have to ignore the Laws that are already made? Is this what we are seeing?

As if censoring our speech is not already bad enough, it is being taken to another level [Digital Army' to Censor Online 'Disinformation'](#), The [US Dept. of Defense](#) to Detect "Disinformation" with The Help of AI. War on free speech has been declared upon us, by those who are ravenous wolves, who hunt their prey seeking whom they may devour.

We are not seeing all these corrupted decisions through binoculars, but upfront in your face. Still unknown are all of those behind the curtain pulling the strings?

The defining of the Left

If you back up the truth with facts you become dangerous to the left media.

"A quote from the book Rules for Radicals that inspires the left "Few of us survived the Joe McCarthy holocaust of the early 1950s and of those there were even fewer whose understanding and insights had developed beyond the dialectical materialism of orthodox Marxism. My fellow radicals who were supposed to pass on the torch of experience and insights to a new generation

just were not there. As the young looked at the society around them, it was all, in their words, "materialistic, decadent, bourgeois in its values, bankrupt and violent." Is it any wonder that they rejected us in toto." (The Cloward Piven way)

They were disappointed at their 'fellow radicals.' Today it is their fellow Marxists that live like this, who pursue materialism and decadence for themselves and insist others do not ,As we saw with the leaders of BLM)

In an address to the United States Senate on June 29, 30 and July 1, 1992, then Senator Joseph R. Biden spoke "On the Threshold of the New World Order: The Wilsonian Vision and American Foreign Policy in the 1990's and Beyond," said, "*The first American vision —the Founders' vision— had concerned the establishment of a just new order within nations through institutions of democracy. The second American vision —Wilson's vision— concerned the establishment of a just new order among nations through institutions of cooperation.*

"Modern-day conservatives who are instinctively frightened by the Wilsonian vision resulting in" the League of Nations was doomed and a new world was born, but not a new world order. ... Now, as the century nears its close, the near-universal repudiation of the totalitarian idea has removed the last great obstacle to the Wilsonian vision."

No one should look to Wilson as an example. Woodrow Wilson was a leader of the Progressive Movement, he certainly was the worst president we had in modern times. While many find good in his policies, there is much more bad. He created the League of Nations, he established the Federal Reserve and Federal Trade Commission, he was a segregationist that promoted the Ku Klux Klan and oversaw segregation of the federal workforce. To be pro Wilsonian vision is what globalism is about.

The same year, 1992 - The Twilight of Sovereignty by CFR member (former Citicorp Chairman) Walter Wriston. He claimed: "*A truly global economy will require ...compromises of national sovereignty...There is no escaping the system." A truly global economy will require ...compromises of national sovereignty...There is no escaping the system.*"

CFR has been associated with setting up a New World Order, to supposedly bringing cooperation between nations. On the Council on Foreign Relations website is a document first appearing on the site spring 2005, called Building a North American Community. http://www.cfr.org/content/publications/attachments/NorthAmerica_TF_final.pdf

Former President George Bush sr. was director of the U.S. Council on Foreign Relations (between 1977 and 1979). He stated in his address to the General Assembly of the United Nations, the same year, Feb. 1, 1992: "*It is the sacred principles enshrined in the United Nations charter to which the American people will henceforth pledge their allegiance.*" Agenda 21 was to be implemented.

It was at the CFR forum that then vice president Biden told the now famous story of his shakedown on Ukraine that got Burisma energy company to comply for his son to be included in a million-dollar a year job.

CFR is one of, if not the most powerful private organization to influence United States foreign policy. We now have [more CFR members in our government](#) than at any other time in history. In fact, there are more lawyers involved as well. World governance is rising we are being told it is the only solution, they call it a reset.

Then President Obama: *I speak to you, not as a candidate for president, but as a citizen, a proud citizen of the United States and a fellow citizen of the world.*”

At West Point President Barack Obama: *“The international order we seek is one that can resolve the challenges of our times.”* The writing has been on the wall.

Has America has been taken over by foreign entities to form a world governance. Is there plan TO take down the most productive free country first so that others will fall in line?

Biden was keynote speaker at [2016 WEF](#), in a long string of attending. [2016 list of speakers](#)
He stated: *“The [Fourth Industrial] Revolution has the potential to further hollow out the middle class. It is our responsibility to bend these changes to the benefit of society – to make sure that the digital revolution creates more winners than losers.”*

We all know the WEF is leading the reset of this fourth revolution where the goal is to [Accelerate Green Transition, Digital Transformation; by business academia and government-collaborate on generative AI development](#)

Klaus Schwab’s founded the WEF in 1971, now at 85 years old, many are saying he is unaccountable to anyone inside and outside the organization. This head of WEF recently said, *“Why do we need elections when we know what the result will be from technology.”* Indeed, the technology they speak of has everything to do with a loss of freedoms and control of the people.

Conclusion[s]

To sum this up, if past history shows us the steps to destruction, we have very little time left. I know this is hard to hear, but the decisions and actions being done continue to lead us to an obvious conclusion.

A person posted a quote of a Turkish proverb that said:

"when a clown moves into a palace he does not become a king. The palace becomes a circus."

The application to OUR NATION TODAY- this circus has not just come to town it runs the towns and cities, and now it has us all enter the danger zone. The obvious (a leader whose vacation time is going on 400 days) and staff that are continually making decisions for him against the common good.

We have enemies, foreign and domestic, pulling the strings of those who are like puppets, and taking the circus on the road for the eyes of the world to see.

Whether you know it or not! Politics is setting us up for a new global order, they are pied pipers that will not relieve the city of rats; it will unify the rats.

America's strength has always been a preventative for war breaking out. The countries ARE [LAUGHING AT US](#) which is made clear by a question given to President Orbán of Hungary who answered it honestly.

These are not organic mistakes, there are too many things going wrong to be just wrong decisions or foolishness. THEY ARE INTENTIONAL in everything they do, it is well planned.

They put on display, parading the oldest and biggest swamp creature, whose mental capacity has collapsed, who is perverse, whose judgment of good and evil is askew making our country a mockery to the world where we were once respected.

We are being humiliated as certain leaders pressure other nation's leaders to adopt the same amoral sexually pervert, child molesting culture they are trying to shape our nation into. [What's The Problem? Child Trafficking Bill Shelved Again By Democrats.](#)

This is all being done by betrayers, traitor's collaborating. We are seeing 1Tim. 3:1 in full force. We need to stop speaking of this as being disgraceful, and shameful (which it is) but instead use words more apropos: treasonous, by manipulators, who coerce, lie, cheat, and do any wicked thing their sinful heart desires.

All need to Pay Attention, for you are next. The Globalist's agenda that is based on communism will affect all of us, take all of our freedoms away, to the point that thinking differently will be punished. What they do to some will be done to all. Communism is Tyranny which spreads its influence by using fear, threats, bribery, and extortion, which is their means to an end. And it always culminates in the death of citizens (Chairman Mao is one example.)

Attention, all Americans, it does not matter what party persuasion you are... WE the PEOPLE need to WAKE UP! IS THIS WHAT YOU WANT to live by? Freedom gives you power, you still have a voice. This is our country, don't let ungodly men change it or take our values away. It's all up to us, how we want to live or we will have no choice in how we die.

These people need to be removed from office, to prevent us from arriving at the point of no return—some think it may already be too late, but I and others still have hope. We must keep them from any position of authority, and every sphere of influence.

I think we all prefer to die of natural causes, not under the thumb of tyrannical rule, or by the hands of lawless people who allow mayhem through our neighborhoods, or cities. Evil only prevails when good people sit by and say or do nothing against the corruption and wickedness they see, we are to be salt and light.

We need to pray, but PRAYER alone will not make this go away, we need to also take action. It is time to speak up let your voice be heard, act now (write, campaign, vote). For our country is at stake.

This is the best thing we can all do for ourselves, our family, and our nation:

It is better to do what is right in God's eyes and risk the consequences from man, than to do what is right in man's eyes and risk the consequences from God.

Division is a tactic perpetrated on the opposition to confuse them to oppose each other. Don't let them tell you different; we are strong, we are grounded in our principles and we are UNITED; but they want us to believe we are not.

We need all hands on deck and REACT (use this acronym). **R**esponsible **E**mergency **A**ction **C**hallenging **T**yranny.
