

Where are we herded to? (...if we do not change direction)

Now that numerous goals of certain leaders have become publicly known, people can see how we are being reshaped and where our country (and the world) is herded to. We are being treated as sheeple by the state.

There is far less restraint on evil these days, as the government allows lawlessness to thrive, just like the Bible said it would be in the end. The socialist progressives (neo communists) circumvent the Constitution so there is no law in the land, they choose what to obey or enforce.

Why is everything that the 'new' Democrats do look like it brings disarray and turmoil? Because this is how they think about these matters, these are their solutions. They do not think rationally, logically or consider the ramifications of their choices. It's like using a sponge to hammer a nail. Case in point- Biden's response to skyrocketing Gas Prices - shut down Another American Pipeline.

Is 'Blinden' the front man or a puppet being used by others who are the real instigators behind the scene? (I have appropriately added in an 'L' for left, and 'N' for nothing = as in nothing left)

The cost of everything is going way up, especially the cost of living, the loss of energy affecting supplies. The supply chain on food and certain goods are in jeopardy. People are leaving their jobs. The Fire department and police, nurses are still being diminished, emergency responders are becoming scarce. It is a time to punish (certain) Americans; in politics there is no more Mr. Nice Guy.

The result is that cities will burn, lack of paramedics, lack of operations in hospitals. America will soon come to a halt if this continues. 81% of Blacks in America want to keep the police. They are not willing to pay the price of losing law and order and having civil society erased and replaced by chaos. But this is not what you will hear from the alphabet 'newscasters'.

They all have contempt for those who disagree, they are obnoxious and noxious; all they seem to care about is power and prestige, (besides money from Soros and others) just like the politicians. The current political leaders do not care for the people they were elected to represent, they don't care what you think. They get into office and say 'we will tell you what to think,' we know

better. You can see that bad judgment affects us all, but what are they really doing and are not telling us?

Leftists do not debate on anything. They can't defend their position intellectually or factually. When they disagree with anyone they choose to have them silenced. They are enforcers of preventing free speech and thought. Besides, words of truth hurt them and there are not enough nurses or psychologists to administer to their wounds.

These people who are heading up the country are drunk on spending the people's money. It's not that the rich do not pay taxes, the top 2 percent pay 50% of our taxes. It's that they, the over-reaching government wants to spend more and more so they need to get more money. (It's like any other addiction.)

Does raising taxes on the very rich help? The Wall Street Journal writes: "In 1980, when the top income tax rate was 70%, the richest 1% paid only 19% of all income taxes; now, with a top rate of 35%, they pay more than double that share." ... Collectively the top 50% pay 97% of all income taxes, the other 50% pay 3% of the taxes." That was the actual breakdown from years ago.

The unreligious Pharisees of our day

After being brought back into their land from captivity Israel did not want to make the mistakes they made that brought this captivity on them. 250 years before Christ the religious leaders, the Sanhedrin decided to begin a new religious work, they began to build a wall around the law, the 613 commandments of Moses. This wall was to be a protective barrier to avoid breaking Moses' Law. One would first have to break their additional laws before they would break Gods law and become guilty and be punished. You can chalk this up to the good intentions of men... it ended badly.

Their laws consisted of 100 additional laws added to the former 613 commandments; the most laws (1,500) were added for the Sabbath day.

They then wanted the people to obey their laws that replaced Gods law. As time went on the Jewish people became more familiar with and obedient to the laws of the Pharisee's than to Gods law, and they no longer understood Gods law as they should. They were being taught the Pharisees laws above anything else. After all there was so much more to know before one could break the Pharisees law. The Pharisees became filled with pride at being more religious than others as they memorized their own laws.

As said by the wisest man on earth at the time "There is nothing new under the sun." In the same manner as the Pharisees, the current administration ignores the constitution, the laws on the books and replaces them with their own laws. The difference is that they are Marxist/ Communists, who do not even believe in God and want you to obey the state like you would God.

To many this is acceptable and they comply for the belief that it is for the good of others. That's what they are told.

The Pharisees wanted Jesus' approval of their traditions to be considered equal with the Scripture, with Moses' law. Jesus would not acknowledge this. Jesus was clear he was not going to approve of their traditions saying "*you lay aside the commandment of God and hold higher the tradition of men.*"

I'm certainly not putting our Constitution on equality with Gods Word that we are to obey above all else, for that alone is the only unchanging truth in the world. However, there is a evident lesson in the correlation of what is taking place that is just as destructive. The tradition of men would be Marxism, Communism, the replacing of our constitution and 'laws' based on biblical principles, ignoring the laws that had been working well keeping the country together.

The Pharisees were so religious, pride was in their nature. They liked being in control. The two most important ways to control people is by religion and politics (governing).

We see that pride is very active in these politicians thinking, and they actually believe they are more compassionate and intellectual than the citizens who put them in office.

Politics and you

Some people taste power AND they don't want to let it go. Besides the non thinking people who keep voting these knuckleheads in. Dennis Prager writes [The Left Is Evil—And Liberals Keep Voting for Them.](#)

What did the Progressive Democratic leaders that are trying to change our country learn from this latest Nov.3 red sweep in the elections? [Absolutely nothing!](#) They are unable to pivot from their position. But the people want a reset on their political abuse.

All this shows is that if we are determined we can turn this takeover around on this lawless ADMINISTRATION that does not care for the working citizens that make the country run.

James Carville a Democratic strategist of yesteryear said, some people in his party *need to go to a woke detox center*; they turned on him.

Now that there is a political fight for our country because people now understand what is taking place and have become engaged. From the other side the rhetoric, the ad hominem attacks are the weapon of choice of those who do not want to accept defeat and want to maintain control.

What of the Church – can we fight for right doctrine and remove the false teachers that have run amuck that are now the majority? We don't need to vote, only act by speaking out and stop contributing to them. We may be a day later and a dollar short!

They call themselves the media and in the smallest sense of the word they are, they read off the screen what they are to say, because they are not able to formulate the news. They are activists,

(anarchists may be more fitting) that try to divide the people, to coerce people to be on the side of wrong by having them become emotional and not think rationally. They most often used racism applying it to any who do not agree with their conclusions.

They keep speaking of a Democracy; we are a Constitutional Republic. Beware of this shift of words for it carries a different meaning, and changes the relationship of the citizen to the government.

All vaxed up

The hypocrisy is that the Democrats did not want to take the vaccine because of Trump had the companies produce it, promoting it as an immediate solution to the virus! Now they use as a weapon, you must take it or else you will lose your job. If that is not hypocrisy on display, I don't know what is! They were the first non vaxers. <https://www.technocracy.news/covid-shots-may-be-killing-more-people-than-covid-itself/>

Why did more people die in 2021 (January through August) than the rollout of COVID shots in December 2020? Did COVID-19 raise the death toll despite mass vaccination, or are people dying at increased rates because of the COVID jabs? There is growing evidence that goes against the accepted narrative of these vaccines.

Approximately 378,955 people in the United States have died from the Wuhan virus in Joe Biden's first ten months in office (and climbing), [statistics](#) provided by Johns Hopkins University. What makes this so interesting is Biden's comment on Trump "anyone who's responsible for that many deaths" — which at the time was at around 220,000 — "should not remain as President of the United States of America," [notes TIME](#). It [was at 396,442](#) as Biden first took office —the toll is now at 775,397.

So why are so many people dying from the vaccine? It may not all be blamed on the vax. Let me propose another alternative, can it be because of wearing masks for long periods indoors, that we are not getting enough oxygen. Which debilitates the brain. This diminished oxygen is a precursor to the green new deal that will solve global warming (more on this the next newsletter)

Induced mortality for the sake of group vax

Much of what is being said here can be redundant but it there is a growing concern now that we are near 2 years after we were told ... *mask up and stay home for two weeks to "flatten the curve" on the covid pandemic.*

In a two-part series, Matthew Crawford of the Rounding the Earth Newsletter, examined

mortality statistics before and after the rollout of the COVID shots. In Part 1, 3 he revealed the shots killed an estimated 1,018 people per million doses administered (note, this is doses, not the number of individuals vaccinated) during the first 30 days of the European vaccination campaign.

After adjusting for deaths categorized as COVID-19 deaths, he came up with an estimate of 200 to 500 deaths per million doses administered. With 4 billion doses having been administered around the world, that means 800,000 to 2 million so-called “COVID-19 deaths” may in fact be vaccine-induced deaths. As explained by Crawford:4

“This does not even include vaccine-induced deaths that have not been recorded as COVID cases, though I suspect that latter number is smaller since the only good way to hide the vaccine mortality signal is to smuggle deaths through the already-established COVID death toll.”

What makes this all the more confusing is that recently [The Italian Higher Institute of Health](#) has drastically reduced the country’s official COVID death toll number by over 97 per cent after changing the definition of a fatality to someone who died from COVID rather than with COVID. (this has been pointed out consistently)

Italian newspaper Il Tempo reports that the Institute has revised downward the number of people who have died from COVID rather than with COVID.

Now to get to the conclusion...I believe this whole scenario that is being required on us is a precursor to something else.

It is not a pandemic from the unvaxed, if you have been vaxed to keep you safe from the virus why are they making you fearful of the unvaxed? Do we need to protect the vaccinated from the unvaccinated? In what alternate universe does that make sense? What is the next virus or variant we will need to be vaxed for? Guaranteed its coming, as they see how this worked so well, they will continue to push this on the population.

Yet even the CDC do not know the percentage of their staff that is vaccinated? But we are *told they are actively pursuing vaccination for everyone*. At this late a time I find it incredulous that this is the answer from Walensky, as she sticks to the script of "spin answers."

We are in a transition phase right now, seeing what can be implemented without much force. They convince the people how helpless they are without government help (or interference). The new techno Science becomes the savior of mankind.

America or America's

You can't have a country without borders, nor allow deadly drugs to continue being brought in while the medical profession severely limits, or makes pain medicine inaccessible to those who have genuine pain. The people in genuine pain are forced to look elsewhere and the drug trade expands. This of course excludes the abusers who find ways to make their prescription pleasurable. There is the answer to those who overdose who look for relief, they buy on the street and find what they took is contaminated from Mexico or China which brings their pain to an immediate permanent end.

Compound this with Covid patients taking up most of the room in hospitals and others with serious illnesses are secondary and you have a perfect storm developing that will affect everyone's health.

The Illegals bridge

Can we get a straight answer for anything? The 'Word Smiths' in the administration change the intentions and meanings of words, or they just don't answer.

An example of this: Reports that were surfacing that your administration is planning to pay illegal immigrants who are separated from their families at the border, up to \$450,000 each, possibly even a million dollars per family. It may look like this is permanent but it will end, abruptly; and real justice will be exercised.

The current death crises

There are two things Trump stood for that the liberals and left could not stand. 1) Israel, and 2) the right to life. Since this is the time we recognize Jesus birth, who came to die for all people's sin so we may have eternal life. Let's look at abortion that robs the child of the gift of life.

Life in the womb is the most hazardous place for a child; a developing child before birth. There has been 34,656,000 abortions in the world, about one every second, in the US one every 38 seconds (over 62 million children prevented from living by an abortion in the USA since Row v. Wade, 1973)

Before this newsletter is read the law can be changed a little or a lot, as the viability standard is being reconsidered from 15 weeks instead of 24 to decide on an abortion. However, this becomes meaningless, as [HR 3755, the Women's Health Protection Act](#) has been passed.

Planned Parenthood committed more abortions in the last year than ever before – 354,871. Guttmacher institute reports that the District of Columbia has the highest abortion rate in America 5,820 abortions in 2014, about 38% of total pregnancies.

2016 - 874,100; 2017-862,000

The total number of abortions in the U.S. 1973-2018: 61.8 million + have met death before they were born.

1. District of Columbia (32.7)
2. [New York](#) (29.6)
3. [New Jersey](#) (25.8)

With the exception of Florida, all are Democratic run states. As of September 1, 2021, there were 39 states that had released abortion statistics for 2019. Seventeen states reported a decline in abortions from 2018, while 21 states reported that abortions increased.

Here are a few of the states that have gone up Arizona up 5.3; Delaware 23.3; Georgia 7.4; Iowa 25.2; Kentucky 14.4; s. Carolina 9.8; Florida 2.4. Those in the minus category Alabama down 7.3; Indiana 5.0; Missouri 49.9. NY and California are among those not reported.

These reports do not include chemical abortions. BTW when [Abortion is described](#) in detail people changed their mind, how can they not if they have a conscience.

What many may not know is that they are [Murdering infants to obtain fetal tissue for vaccine research](#)

Is abortion the only sacrifice of humans, or are the murders that continue in cities like Chicago human sacrifices too? How many are killed each week as a war on American soil escalates. From inside the womb to outside on the streets, people are under attack because of lawlessness.

Apparently Pro-choice only applies to babies; for abortions. These who are activists are not pro-choice on freedom of speech, healthcare, energy, cars; just about anything can be added to this list. What is exempt is their own female bodies.

We are not to be sheeple under the state, but sheep under the good shepherds care.

Our choices are God given by the image and likeness of God given to man when he was formed. Our sin nature has corrupted us from making good choices, now we have other oppositions to make 'good' choices. Let us remember this is a spiritual war that influences mankind's direction, pray for our nation and leaders who will stand up for what is right and good in Gods eyes, not mans.

May you know the grace of our Lord Jesus Christ,

*Since it is the end of the year I would like to give an inventory of both what and how I have been doing.

I have been working diligently on two new books hoping they will be finished very soon. First, "the prophecies of Israel and the Church in the last days." A comprehensive look at the prophecies that are taking place and will soon take place for each. Looking into the coming Tribulation for Israel and the world, and the Church with the growing apostasy and the coming rapture/resurrection of believers. This goes further into the issues than "the Empty Pulpit book".

The second book is the glory of God in the crucifixion which focuses on 'the who' of the gospel, and what took place that was prophesied. Why God became man, the way he became man and what took place on those 6 hours of crucifixion and the third day after.

I'm also looking forward to have at least 8 new DVD's to be produced on various subjects that are taking place. (our [videos](#))

In this last newsletter of the year I want to bring our readers up to date. 2021 has been a productive and yet awful year for me and my family, as my sons turn for the worse in his health. We had changed his health insurance and went through a horrid experience with a doctor who was fraudulent in caring for his personal health the way he should. He dropped him when we took him to an allowed appointment of another doctor. We then went to two other doctors who were of no help. The medical industry is not what it used to be. So many doctors with wrong diagnosis over the years. I have had to bring him to emergency room dozens of times because the medical profession has failed our needs. By now you're may be thinking we need a good lawyer, I agree. But they are hard to find on these medical issues. But we have Jesus!

Needless to say that this has taken up much time and money, as not all the prescriptions are covered. During this time my wife has also been incapacitated and needed a hip operation which

she finally got and is recovering. I have been doing most of the major chores, laundry, cleaning the dishes, shopping (which I dislike) etc.. Apart from the grace of God I would be submerged.

Pray for us. I rarely ask for help, however, any order of books or DVDs or gifts at this time would be 'greatly appreciated.'

Have a wonderful Christmas, tell all about the savior, and "*Stand fast therefore in the liberty by which Christ has made us free.*"
