The Coming Presence Movement- Enter Moses.

The Coming Presence Movement

By Mishel

In the first part of this two part article we discussed Dutch Sheets claiming that God visited him on June 15th 2008. During this alleged visitation "God" told him to host His presence for 90 days and to hold 3 days of worship starting September 11th through the 13th to mark the last three days of the 90 day period. The 90 days would serve to incubate and mature the movement before it would be released mainstream. Enter Moses.

"I hear the Lord say, "be expectant concerning September. Something big is coming!" (This word was given to me in May of 2008) "I was awakened this morning at 2:22 A.M. and the Spirit had me get up and receive something for Pastor Dutch [Sheets is the author of this so why is he referring to himself in the third person?] about what is happening during these 90 days of hosting the Ark of His Presence. I was instructed to go to Acts 7 and read what Stephen had to say. There was the story about Moses and how he was hidden from Pharaoh from 3 months, or 90 days! Acts 7:19-20 and Exodus 2:1-10

The Spirit said these words to me about the 90 days of worship: Moses mother gave birth to a ruler, deliver and redeemer who worked wonders and signs. She hid him for three months and when she could no longer hide him she put him in an ARK. The Spirit said for the next 90 days this birthing and "young baby" will be hidden from exposure to the world (Egypt). When it can no longer be hidden, He will allow the ARK of his Presence to be set up in the main stream of the world to be found by those who will accept Moses and love him and give him freedom to be in Pharaoh's courts.

According to his words above (taken word-for-word from his website), Sheets is comparing these 90 days of worship and the "hosting of his presence" to the hiding of Moses from the Egyptians! According to the Word of God, Moses mother Jochebed hid

baby Moses for 90 days from the Egyptians who had been instructed by Pharaoh to kill all baby boys born to the Hebrew slaves. Moses was a type and shadow of Christ and all of God's early dealings with Israel were transacted through Moses. He was a Prophet Priest and King just as our Messiah whom he foreshadowed. Moses was placed in a basket (type of Ark) and floated down the river Nile where he was found by the daughter of Pharaoh. Moses represented the law and was placed in an ark to symbolize the ark of the Old Covenant which would physically house the law of God. The tablets upon which the Ten Commandments were inscribed were placed inside the Ark of the Covenant which foreshadowed the coming Messiah. Jesus is the Ark of the New Covenant and replaces the Ark of the Old Covenant. We have no need for the law as Jesus is the fulfillment of it.

Sheets is comparing this "Presence Movement" to the birth of Moses! He is essentially declaring that they are giving birth to a ruler, deliver and redeemer who will work signs and wonders! They are to hide this newly birthed baby from the world for 90 days which is to correspond to the 90 days of "hosting his presence". Then, when Sheets and company can no longer hide what they have birthed, they will set the newly birthed movement adrift to be discovered by the world in the hopes that those who accept "Moses" and love him will give him a place of prominence and influence in the world.

If the hairs on the back of your neck are not standing up by now – they should be.

So these next 90 days at Freedom Church is for the brooding of the Holy Spirit, the birthing of "the baby Moses Movement" and the maturation of the "baby" until he can no longer be hidden from the world. But at the end of the three months, this movement will have to be exposed to the main stream of humanity who needs deliverance from Egypt's bondage and old religious wineskins. Millions will soon be exposed to this movement on the earth. Mainstream religious and civil governments will see this new movement as the ARK of God is carried downstream to mainstream media and religious circles.

Have you even heard Jesus mentioned so far? Moses was merely a type and shadow of Christ but he represented the Old covenant and the law. Moses delivered his people out of slavery even as Jesus delivers us from the slavery of sin. Since Jesus was the yes and amen why are we looking to yet another deliverer? This is blasphemy in the highest form. It is essentially making what Christ did on the cross null and void. It is laughable to me that they claim that this will release us out from bondage. And what is the bondage we are being released from; Biblical Christianity, of course! The law (which Moses represents) can neither save nor deliver us from anything let alone our "old religious wineskins". This is ludicrous!

The Ark of God with a New Moses Movement will be seen in all the mainstream media before it is over! The Ten Commandments will once again be up front and center in our courts and courthouses. This movement will also reverse the abortion issue! This next move will work towards reversing the abortion issue within the next 2 years!

The Lord gave me this word from September 11, 2008: "What was a day of disaster will now be a day of laughter! I will open the gates of heaven!

Transition is on the way. Tell Pastor Dutch ASAP that this is just 2 days before the 90 days of glory will be fulfilled. Breakthrough, breakthrough is coming for, you big time! For this is the 7th year following 911. 7 is perfection and 9 is harvest of fullness and 11 is transition or stop. Over! The old is out and the new has come! Be encouraged for all is well.

It is interesting that I am writing this on September 11th 2008, a day before Hurricane Ike is to make landfall in Texas. The name Ike is Hebrew and literally means "He laughs". It is interesting to me to note how many times Sheets refers to wind and rain in the second paragraph below.

The upcoming days in Colorado Springs will be a time to focus on and engage the presence of God as never before. To some this will be a time of impartation but to others it will be a time of greater activation of that which they have already been properly stewarding. The Lord says that from that assembly of people there will be a release of the rain of his presence that will cause the walls that have been built by man and plastered with false mortar to be exposed. The Lord says I will bring about a new deployment from this new beginning and I will establish the fact that even purpose without presence – can not bring a release of the Kingdom with impact.

For I will impact the lives of those who are consecrated unto me, and will cause them to begin to see the future with such clarity that they will not speak of that which shall come, but will speak of that which is coming as though it is now. Set your heart, for my wind and rain will come and bring you to a new day of understanding. And know this, as the winds blow and the rain comes the aligning of this nation will come about. The false plaster will be washed away and lines of demarcation will be set; those who have consecrated themselves unto me will understand that I take away to establish. For in this time I will shift the nation from a Babylonian mindset that has entrenched itself in My church, to a covenant heart that flows from the grace of My being, says the Lord. For even during the worst of times I had my Hebrew children who would not bend their knee to Babylon and it is so now- I have a people who are ready to see this nation transformed.

Sheets is literally saying that the wind and the rain will align the nation and bring us to a new day of understanding. He is also saying that God is going to take away in order to establish. So just in case any of us missed this let me recap what Sheets is actually declaring:

- The "holy" spirit visited him on June 11th and asked him to host His presence for 90 days 24/7
- The last three days of the 90 day period are to be marked with worship services. These are set to begin on September 11th 2008 which is 8 yrs after the World Trade Center disaster and 88 days after the initial visitation. The meetings will last 3 days.
- September 11th will henceforth be known as a day of laughter

- During this 90 day period they will be birthing a new "Presence Movement" and bringing it to maturation.
- This movement is likened to the birth of a ruler, deliver and redeemer who will work wonders and signs.
- They compare this birth to the birth of Moses and even call it the "Baby Moses Movement"
- This new movement is to deliver us from the bondage of our "old wineskins"
- When they can no longer hide this maturing baby it will be presented to the world in the hopes that it will be picked up, loved and given a place of prominence.
- God is going to take away in order to establish
- Wind and Rain is going to align the nation and bring us to a new understanding.

Look folks, the plans that the New Apostolic Reformation has to unite us into one religious system under another gospel and another Christ are well documented. It is the same Dominionist heresy and I need not expound on it here. However, what is extra chilling to me is that they are announcing the birth of "their" redeemer in this new "Presence Movement".

Do you not know that these people believe they are building a new foundation for the global church and want to establish the Kingdom of God here on earth? Although they loosely veil it, they consider themselves divine, gods, and equal to Christ! They teach that we can attain perfection here on earth. How much more "in your face" does this need to be before the church wakes from her slumber? WAKE UP! WAKE UP! We are being destroyed from within by another Christ and another gospel.

The coming "Presence Movement" is the great and final Trojan horse not an ark! Even as the New-Agers await the "Christ consciousness" which will indwell them and lead them to the next level in their evolution toward godhood, the New Apostolic Reformation adherents are looking to the "Baby Moses Movement" to lead them out of the bondage of religion and into world domination. Of course we know that they are serving the same warmed over dish of arsenic that the New Agers have tried to make us eat. They have just sprinkled a bit of cheese on top to make it look a little more harmless to the undiscerning.
